Negative Pressure Wound Therapy

A Better Choice for Negative Pressure Wound Therapy

Are you tired of waiting days for Negative Pressure Wound Therapy (NPWT) set-ups when it could be done in hours? We understand your frustration and we're here to offer a better choice.

When you choose Apria on the WoundQ™ ordering platform for NPWT, you'll experience our enhanced service commitment and the latest product advancements. NPWT setups can be scheduled immediately once we receive a valid prescription and verify your patient's insurance eligibility. Order status will be automatically updated in WoundQ, giving you visibility into the status of the products you've ordered for your patients.

We are committed to making NPWT setups faster and more efficient, improving patient care, and saving you valuable time.
