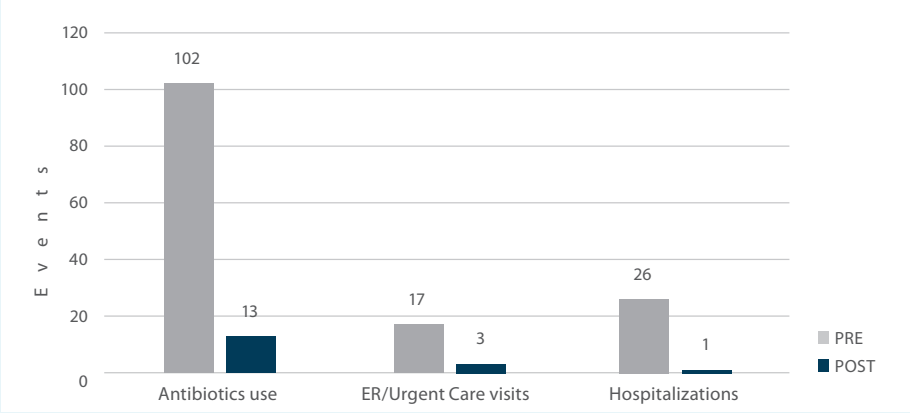
Discover comfortable, effective, connected airway clearance therapy with AffloVest®

Patient-preferred AffloVest can help reduce hospitalizations and other complications for chronic respiratory conditions.[1]

- Engineered to anatomically target all five lobes of the lungs, posteriorly and anteriorly
- Eight oscillating motors loosen, thin, and mobilize lung secretions
- Three modes of oscillation treatment, three adjustable intensity levels for custom treatments

PRE VS. POST AFFLOVEST HFCWO THERAPY[1]



COPD and bronchiectasis patients using AffloVest HFCWO therapy have shown reduced hospitalizations for respiratory causes and better overall respiratory health.

↓87% Reduction in antibiotic usage

↓82% Reduction in emergency visits

↓96% Reduction in hospitalizations

AFFLOVEST®

AffloVest requires a doctor's prescription for treatment by high frequency chest wall oscillation (HFCWO). The AffloVest has received the FDA's 510k clearance for U.S. market availability, and is approved for Medicare, Medicaid, and private health insurance reimbursement under the Healthcare Common Procedure Coding System (HCPCS) code E0483–High Frequency Chest Wall Oscillation. The AffloVest is also available through the U.S. Department of Veterans Affairs/Tricare. Patients must qualify to meet insurance eligibility requirements.
