Patient Samples Ensure Right Fit

Ensures the right product from day one. Our team proactively contacts patients to confirm sizing and, when needed, provides sample kits with 2–3 days worth of supplies to ensure the best fit and comfort.

Better Patient Financial Experience

In-network with most state Medicaid and most commercial Medicaid plans. Byram handles documentation, billing, and prior authorizations.

Access to Prevail eNurse™

Through First Quality, patients have 24/7 access to a dedicated eNurse for clinical guidance and product support.

*On new Incontinence patients with valid prescription and valid diagnosis code. Prescriptions for incontinence supplies must contain more than one ICD-10 diagnosis code. An ICD-10 diagnosis code reflecting the patient's incontinence and an ICD-10 code reflecting the condition causing the incontinence must both be present on the prescription. If there is ONLY one diagnosis code(s) on the prescription all incontinence supplies will be denied by most insurance payors.
